Diploma in Animation: Animation And Special Effects
Animation & Multimedia Education Arm of Aptech Ltd
From: January-2010   **To:** December-2012

PROJECTS DETAILS

Project: Virtual Event Platform - ReactJs
Role: Software Developer

Responsibilities:
I customized the UI to meet the specific needs of our clients, incorporating resources and meeting agendas, and ensured seamless deployment of documents for merging. Additionally, I implemented deployment and enhancement features on the Virtual Meeting Platform.

Project: E-commerce Platform - ReactJs
Role: Software Developer

Responsibilities:
One notable project I spearheaded involved the creation of an e-commerce website seamlessly integrated with a robust payment gateway system. This endeavor was solely driven by my curiosity and desire to learn in past experience.

For product management, we utilized Strapi, a headless CMS solution. Additionally, we integrated the Stripe payment system for secure and reliable transactions.

Product Listing Page: A user-friendly interface for browsing available products.
Product Single Page: Detailed information about individual products, enhancing the shopping experience.
Checkout Page: Smooth and efficient checkout process for seamless transactions.
Product Filtering: Users can easily navigate through product categories to find desired items.

Project: Childhood Development Tracking Tool - ReactJs
Role: Software Developer

Responsibilities:
We're proud to have developed a ReactJS website for a childhood development tracking tool, in collaboration with Rangam and Dr. Michael Lewis.

Key highlights of this project include:

Reusable Modules: Utilization of reusable modules to enhance development efficiency and maintainability.
Video Player Integration: Implementation of a video player within the React project, facilitating multimedia content consumption.
Brightcove Integration: Proficiency in integrating with Brightcove, a leading streaming video platform.
Progressive Web App (PWA): Leveraging PWA technology to ensure accessibility across various devices and platforms, providing a seamless user experience.

These projects underscore our team's expertise in ReactJS development and our commitment to delivering high-quality solutions tailored to our clients' needs. If you require further details or demonstrations of our work, please feel free to reach out.
